RE: Your request for my conference with you to dismiss charge

Greetings:

At about 2:45 PM today, I received a call from someone representing himself to be a Police Detective, saying you had asked them to call me to ask me to come to the Jacksonville Police Department to discuss the dismissal of the charge against me.

After consulting with my assistance of counsel and good friend, Robert James Fox, and reviewing the law governing these things, and considering everything involved, I determined that this would be improper and impermissible in law.

Since the matter is being prosecuted by the City Attorney in Municipal Court, the matter can only be dismissed by approval of the Judge on the prosecutor's recommendation.

I suggest that we arrange for a hearing in the court before the judge with the prosecutor present along with myself so that the matter may be properly disposed of according to law, hopefully, prior to Wednesday, May 21, 2008, because I am driving back to Missouri then.

Otherwise, it would seem to me you simply need to ask the prosecutor to dismiss the charge and get the judge's approval, and then send me an original certified copy of his order of dismissal.

Please understand my reluctance to speak with you personally in light of the situation and circumstances. There have been some very serious damages and injuries done to me, and to Mr. Fox as a result of all this.

Perhaps once you obtain the Order of dismissal with prejudice of the bogus charge against me from the court, and provide me with same, I might consider speaking with you. Of course, as long as my civil suit is pending, I don't want to do anything to jeopardize my claim, and I've had to expend a considerable amount of time and costs in this matter.

However, I am a very reasonable man; I just insist on strict constitutional obedience by any and all public servants, and demand justice when they are disobedient.

Thank you again for calling me.

Cordially,

David George Baugh
