Dear David,

I delivered a Habeas Corpus to the clerk just before closing time Friday, May 16. Everything was back up on KETK NEWS on Friday as Reece Daniel, the preposterous liar, showed a table covered with pills, thousands he said, eight thousand or more, packaged for sale, labeled house of Israel, Republic of Texas, 300 S. Main Street etc., as Reece explained that the people of the house of Israel were the same type as Timothy McVeigh and Randy Weaver, dangerous!!

Barry, myself, and others are relying upon you to defeat the bogus grounds upon which you were seized. You will have to live up to your namesake in front of Goliath (the beast system) and be stronger than ever before. If it was me, I would not take no as an answer, defeat is not an option. You have the law and the facts on your side, nevertheless you must be absolutely relentless otherwise they will attempt to steamroll you. Your sister is executing an affidavit in your defense. You should be able to call witnesses in your defense, even if it must be by telephone! You were groundlessly designated as armed and dangerous, which obviously provides an excuse for your death wherefore there are grounds to believe that they are going to murder you before this is over. Lawful arraignment is in open court, on the record, and before my public witnesses & nothing else will do.

DB: Before we start I have a question, do you support the Constitution as per your oath? J: Absolutely!
DB: If the facts and the law show that the basis for the alleged warrant, the lawful existence of which I offer to prove fallacious, is actually an Eighth Amendment violation would you act in collusion to support the criminal activity?? J: Definitely not!
DB: Since my very life is at stake would it be fair and reasonable for me to be able to present all the evidence that is necessary to handle this matter??
Best Wishes Always!
