Department of Justice figures, adjusted for population, show that incarceration rates are 6 times higher in the USA than in China or Canada. Either Americans are genetically predisposed to be criminals or we have too many shysters in the mix. Nine hundred per week are going to prison and thousands are dying just at arrest. 124 men were exonerated and released from death row in Texas alone, which raises the question “How many innocent people are still on death row nationwide?”

There is an incredible need for education, training, and help for the innocent victims of the oppressive tyranny. It has long been my goal to establish a Law Center for the Christian prison ministry outreach and the Matthew 25 mission to “set the captives free”. Many people recognize that they may start their day off with some freedom, but end up in handcuffs before the sun goes down. Many have called me for help. A Law Center would mean that help would be available to more people all the time.

You now have the opportunity to strike a blow for freedom by supporting the Law Center that is within our grasp. Yes, we have found the place. We have an opportunity to buy an existing church building with about 30,000 square feet for about $10 / sq. ft. It has 3 meeting rooms - a sanctuary for over 600 people, a chapel for about 100, and a dining area for approximately 200. It also has kitchens and many classrooms with plenty of room for people and resources. In order to help yourself and others escape the tentacles of the B.A.R. controlled legal system that has taken over our nation, **please make your donation now**, cash or postal money order, to: house of Israel, 300 S. Main Street, Jacksonville, Texas [75766], 903-541-2482.
