NOTICE TO MEDIA
Regarding David Baugh & house of Israel:
May 20, AD 2008

FRAUD: The Jacksonville Progress has been apprised as to how preposterous this whole thing is, as the very line which they printed was pointed out to them, "The Jacksonville Police Department has asked that the types of drugs not be released to the public." Which of course is prima facie evidence of FRAUD, a deliberate intent to deceive the public, created by the police and abetted by the media, as opposed to providing full disclosure.

DRUGS: The media has presented the issue of large amounts of drugs as being packaged for sale and distribution, however simply sending the police search and seizure list to a pharmacist resulted in the attached report, clearly stating in its conclusion, "All of the above would be expected to be present in a dental practice for routine use and dispensing for patients." The police knew that the drugs were ANTIBIOTICS associated with the dental clinic, awaiting the return of the dentist.

FELONY FUGITIVE: Given the alleged seriousness of the felony arrest, it is further evidence of the intent to deceive, otherwise the specific felony being alleged against David Baugh would have been made known as the heinous crime of failure to pay for a driver license. Yes folks, David read the Constitution which clearly declares the ABSOLUTE RIGHT to FREE EXERCISE OF RELIGION, and made a lawful challenge as to how anyone could be taxed or charged a fee for a driver license to get to church for the FREE EXERCISE!!

SWAT TEAM ATTACK: David Baugh had to come from Missouri to Jacksonville in order to go to the Jacksonville Municipal Court on Wednesday, May 14, in order to handle the matter of his April 7 unlawfully imposed false arrest for "Failure to Identify". Numerous other people were having their Class C misdemeanor matters handled in the Municipal Court, however David and was singled out, discriminated against, and over his objection David was absolutely DENIED resolution of

the matter, followed by the SWAT TEAM ATTACK the very next day, May 15!! Obviously if David would have been notified of a court date he would have been there whether it was May 15 or any other date. The designation of "armed and dangerous" is fabricated nonsense used as an excuse for totally unnecessary, life threatening attack by force of arms, and the destruction of private property under color of law, as the Jacksonville Progress Newspaper reports, "A squad of Jacksonville Police Department officers, in full SWAT regalia…", furthermore the attack was conducted with military type weapons, in the hands of police under SWORN criminal complaint for aggravated assault and aggravated kidnapping!!

WHISTLEBLOWER: David Baugh is a whistleblower in that he exposes police corruption, such as the April 7 unlawfully imposed false arrest for "Failure to Identify" which he suffered at the hands of Jacksonville Police Department. The fact that David filed a civil lawsuit and a CRIMINAL COMPLAINT AGAINST THE POLICE may be the real reason for the life threatening SWAT ATTACK, in the nature of attempted murder. Coincidentally, it is probably next to impossible to pursue a civil lawsuit from a jail cell.

DECEPTION BY THE MEDIA: The media, already put on notice as to prejudicing grand and petite juries, has presented the drivel and deliberate deception provided by the very police who are under criminal complaint as to their conduct, as to which the media consistently neglects to inform the public in this matter, while also failing to provide the public the real news material provided under penalty of perjury.

SLANDER & LIBEL: The Jacksonville Police Department and the media have acted in collusion to deliberately deceive the public as they presented, absent investigation, the slander and libel that the police wanted to have presented regardless of how preposterous it was. This is the very same police department that in recent memory had a police officer, Larry Pugh, raping women and when he was finally arrested for the numerous rapes, he simply bonded out and the witnesses coincidentally started dying!! Is this what is starting to happen all over again??? If David Baugh dies in custody will the media take a share of the credit for MURDER??? Will Cherokee County and the State of Texas, having failed to take

appropriately swift action on the criminal complaint, accept responsibility for MURDER???

RETALIATION: The media appear as coconspirators with the Jacksonville Police Department, acting in the nature of retaliation against a witness to police crimes!!
