Re: your case # 0:07-cr-00226, USA v. Kevin John Morse

Dear Mr. Lewis,

I have an interest in justice and the correct execution of the law. Although I can understand how a BAR TERRORIST like yourself would want to thwart the ends of justice, what I really question is your authority to do so by means of falsification of the record in open court.

You know or should know that a criminal conspiracy to thwart the ends of justice has been perpetrated by BAR TERRORIST Arthur J. Boylan and Clerk Richard Sletten. You indicated there was some sort of threat in my communication with Boylan, however I am unable to find such threat. The fact that you appear to support their criminal conspiracy causes me extreme emotional distress.

Pursuant to my right to Federal Rule 26(b)(3) pre-filing discovery, please answer the following questions:

AMENDED DISCOVERY

- 1) Please specify the type of threat involved. Was it nuclear, an assassination, or a spanking?
- 2) To date, have you filed a criminal complaint as to the threat?

- 3) Please specify which works of mine constitute a threat.
- 4) Admit or deny that you have the authority to lie to the court.
- 5) For the record, please specify how many times you have lied to the court.
- 6) Did Arthur Boylan request that you raise the issue of threat in a letter?
 -) Were you being paid while you were falsifying the record in open court by lying as to a threatening letter?
 -) Did you make a refund to your employer for the time period that you spent lying?
 -) By paying you to falsify the record by means of lies, has your employer joined in the conspiracy with you?
 -) Please provide the EIN number for the United States District Court in Minneapolis.
 -) What statute is it that you would rely upon to claim immunity in a commercial venture under the Clearfield Doctrine as per the EIN of the USDC in Minneapolis?

I expect your lawful answers in a timely manner.

Thank you.
