INSTRUCTIONS FOR THE ACCEPTANCE OF RESPONSIBILITY DOCUMENT

It is quite obvious that no individual in his right mind will sign this document.

The intention is not to get an individual to accept responsibility in this way, but to:

Realize that there is a considerable risk

Realize that they themselves could care less that someone else is injured

Realize that they will accept no responsibility for vaccine related injuries

Become acquainted with the risks and to accept responsibility by not forcing compliance to some bogus rule, standard or guideline that is not the law at all.

It is intended to put the official on the defensive that is a substantially weakened posture.

Furthermore, it is a response to the intimidation that is often encountered.

If an individual refuses to sign on, ask the following question:

"Why not? Am I supposed to accept all of the responsibility and my child to accept all of the health risks?"

Then offer to negotiate the potential settlement, and ask:

"How does one establish the monetary value of suffering?"

"Is it worth nothing to you?"

"What is the law and what does it state?"

"Who benefits financially from this program?"

---answer: The school district gets federal money if there is 100% compliance.

"How does this present a risk to others?"
