

“Excuse me ...

what is, where is, the competent fact evidence that smart meters are safe & secure?”

EMF Engineer Rob State, The Dark Side of 'Smart' Meters

Protect Yourself From Digital Utility Meters

<http://bit.ly/N6ysTl>

We compromise with the most valuable and important people in our lives, our family members and our trusted friends. There should be no compromise with strangers and institutions that make claim on our rights and property.

**Dr. David Carpenter, MD**, a graduate of Harvard Medical School and a physician who has worked in the area of electromagnetic fields (EMFs) and public health for over 18 years insists that **there is no evidence whatsoever that smart meters are in any way safe for human beings**. He goes on to say that there is, in fact, ample evidence that demonstrates “convincingly and consistently” that **exposure to radiofrequency radiation (RFR)** at elevated levels for long periods of time increases the risk of cancer, damages the nervous system, and adversely affects the reproductive organs.

“...the inauguration of smart meters with grudging and involuntary exposure of millions to billions of human beings to pulsed microwave radiation should immediately be prohibited...”  
--Olle Johansson, PhD, Department of Neuroscience, Karolinska Institute (Sweden)

Agenda 21 may be called, “predatory totalitarianism.” –Lord Christopher Monckton

“Smart Meters” are, by definition, surveillance devices which violate Federal and State wiretapping laws by recording and storing databases of private and personal activities and behaviors without the consent or knowledge of those people who are monitored.

It is possible for example, with analysis of certain “Smart Meter” data, for unauthorized and distant parties to determine medical conditions, sexual activities, physical locations of persons within the home, vacancy patterns and personal information and habits of the occupants.

**Third Amendment**  
No Soldier shall, in time of peace be quartered in any house, without the consent of the Owner, nor in time of war, but in a manner to be prescribed by law.

**Fourth Amendment**  
The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, ...

Ratified amendments to the r787 Constitution of the United States, December 15, 1791.
