

Chapter 5 - The World of Slavery and Voluntary Servitude -
Did You Volunteer? Are You NOT HAPPY?

D) There are many stars. Can stars be for offense/defense?

It seems to me that over the years most individuals believe that the terms offense and defense are a separate function(s) that are used at different times under different circumstances. If I was to contemplate my actions in my life, offense and defense are only one function which are used simultaneously and never placed except in one location - the forefront of my mind. One might want to contemplate this for a moment.

This offering is seven (7) motions which I used in 1998 when a group wanted to inform me of their supposed power to force me into their world of submission. Most would think that a single member of law enforcement just wanted to 'stop' me. How 'child-like' would that thinking be if one 'knew' me and my life.

This Part D will have two (2) verbals ^sassociated with the paper-work. Failure to listen to both verbals will not necessarily cause a crisis on my behalf. There will be two (2) sets of paper-work associated with this Part D. The first set is the 7 motions. The second set is associated paper-work.

It is my impression that the verbals will speak of numerous corrects. Please remember, these motions were done over 12 years ago and I think that I have learned a couple of things in the last few years. Please notice that the case citations are from Arkansas and one must find the associated cases in your State to be useful. By having the Arkansas cases, one can 'sheppard' the cases back to your state. Without sincere effort on your behalf, results will be meager.

Those which produce will reap benefits. Those which are constantly only talking will fail and blame their failure on everyone else.
