

Chapter 7 - Time - Possibly the Most Important Subject! (Did Adam have a 'Times' wrist watch to tell time?)

C) Six(6) + One(1) equals(=) Seven(7)

For some individuals the above addition seems so easy and for others it is impossible. Those individuals which can not do simple arithmetic also seem to have 'confusion' in their lives. I wonder why?

"Six days may work be done; but in the seventh is the sabbath of rest, holy to THE LORD: whosoever doeth any work in the sabbath day, he surely shall be put to death." - Exodus 31:15.

It surely seems to this individual that 'put to death' is a very important subject for all individuals to be very concerned as to 'getting it right'! And, of course, most individuals 'know' that the day in which they are observing is the correct day for observing the sabbath; so they say!

After all anyone can buy a calendar in virtually any store. All kinds of business stores give a 'calendar' away 'free' to anyone which will take the 'free calendar'! And, surely this 'free calendar' must be the correct calendar. Why would anyone attempt to hide the correct calendar of THE LORD? MAYBE TO INSURE THAT 'THE LORD' WILL PUT YOU TO DEATH?

After all, there are no bad guys out there according to your preachers. There are only 'good guys' in the world which have your 'best' interests in there hearts for sure! Never would anyone attempt to bring 'confusion' to your life! And, of course, all the individuals which have your best intersts at heart clearly point out to you that the calendar which is in use in the world was only put into 'effect' worldwide in 1775 A.D.. But, after approx. 5300 years mankind finally got the calendar correct; so they say!

Enclosed is a full year of THE LORD's CALENDAR. This calendar was found by this individual in the Book of Enoch, from the Ethiopic, by Laurence, Chapters 71 thru 78. At no time in my life has anyone put forth a 'rendering' of this calendar to my knowledge! This rendering took me approx. 1½ years to 'work-out' due to the influences of others which 'said' that they were trying to assist me. After approx. 15 months, I said 'good-bye' to those individuals and got on with the business of getting it done without the 'nay-sayers'.

At a later date, a more detailed typing of the details will follow. I suggest that the individual 'look' and absorb the 'even' of this calendar at this time. The verbal of this offering should be most informative.
