Captain Mike Foster
Troop Comander
Arkansas State Police
2724 Airport Road
Harrison, Arkansas, 72601

Dear Captain Foster:

I was not aware that Captain Harp had retired and you are now the Comander of the Harrison troop. Please accept the enclosed in case you were never given a copy of same.

The enclosed should allow you and yours to maintain a BOLO as to a 'no contract' relationship with my individual-self. If you have a disagreement or wish to contact me for any reason, my phone # is 1-870-496-2727. Thank you.

The enclosed cover letter is my method of stopping an individual which it appears was trying to cause a problem for one of your troopers. I have no doubts that your Sergeant was 'baited' through incomplete information and did not make the statements attributed to him. The case is closed as far as I am concerned.

Please understand that I have great respect for law enforcement except that I would never take a job of such responsibility for such low-pay as is given to members of law enforcement.

Thank you very much for your time and interest.

Most Sincerely,

Jerry F. Kirk

Re: Cover letter pertainent to Constructive Notice and
Requirement to Perform(2) sent directly to same and others.

Dear Sergeant Alexander:

Thank you very much for taking the time and interest as to reading this letter and the enclosed materials upon which you have been duely served. It has always been a policy of my life to keep 'open' the lines of communication with law enforcement. Many times in my life, said communication has resulted in members of law enforcement having a different opinion and direction of their methods of operation in a positive fashion.

My experience with law enforcement begain at a very early age through the vicarious training of my Dad, John E. Kirk. He was a member of the Bar, a judicial investigator, and at a time the attorney for the Dade County, Florida, Sheriff's Dept. My hands-on experience has been with individual(s), county, city, and state-wide initiatives. It may be of some interest to you to engage in a verifiable verbale conversation as some of those initivatives.

Open and correct communications are necessary. Failing that item, then judicial proceedings are indicated. In this case, I am some what confident that judicial proceedings will not be necessary unless someone else wants to cause such action.

On August 27, 2010, at approx. 2:15 p.m. an individual, in-front of a witness, stated that a member of the Arkansas State Police intended my individual-self harm. This individual prolifered your name and phone number. I stated that I would contact you, as I am doing.

Normally, I would give about zero(0) credence to such an incident. However, less than 45 days ago, another member of law enforcement visited with me and stated two times, "that this issue is not worth dying about" and one time "that not worth getting shot about". That member of law enforcement was in no way trying to intimidate or threaten me. He was just allowing me to know what certain individuals, as he called them, "wild-eyed" members of law enforcement were saying. I was not provided with names in said incident so that I could correctly visit with them.

IN NO WAY am I including or intimating that you are involved in this group of 'wild-eyes'!!! It is almost impossible for me to believe that any member of any State Police would be involved with such a group.

Further, I am almost certain that said individual which related your name and statements did not provide you with the 'characteristics of my status', my name, other pertinent data, etc.. And, I would believe that said individual did mis-apply your statements relative to your appropriate course of action if any was required.

Thusly, I am enclosing various 'paper notifications' which have been duly served in the past for your edification and others. It has been some time since said papers were served. And, this period of time may have caused the subject matter not to be 'known' to individuals which should have access to the same to assist them in their decisions and course of action, if any. I do trust that you will share with members of law enforcement at city, county, and state levels. Thank you!

You and all others may be abundently assured that I have zero(0) contracts with your corporate employer, now or in the future. Thusly, there is no enforcement jurisdiction available to employees and, or, agents. You may be, further, assured that at no time will I request or avail myself to the services, benefits, and, or, gratuities of any corporate government. This is not allowed relative to the 'characteristics of my status'. I will attempt to contact various entities of the corporate system if one of their corporatees(residents) is in need of such services. If any corporatees(resident) harms me or mine, then I will contact the appropriate agency for the protection of said corporatee(resident). Failure to respond by said agency will probably result in said corporatee wishing that someone like you was handling the situation. No threats, just what may become necessary to defend my life, etc..

In other words, I have no desire, no need, and no allowance for a corporate entity to 'serve and protect' me. I serve only THE FATHER's LAWS, HIS WILL, and HIS Only-Begotten-SON, THE CHRIST. And, no man is allowed to serve me. HE will protect me or HE will not as that is HIS decision and not mine! I fully accept whatever decision HE desires and executes!!!

I am hopeful that you will diligently examine the enclosed items to fully ascertain the true 'characteristics of my status'. Said diligent examination will reveal and prove that the corporate government has no contracts with me, no reason to enforce non-existent contracts, no reason to do business with me, and thusly, no jurisdiction with or over me. This 'no jurisdiction' is rather difficult for many who have never examined said subject in detail. Those which have false egos equate this as a limitation of their individual power and tend to do something rash. The truth is that there is no power and not just a limitation.

However, if you come to a different conclusion, based upon case law and THE FATHER's LAWS, then I invite you to proceed to any state attorney and proceed with whatever action you and he determine to be in your best interests. There is no need for the 'citation process' and any other rituals. Just obtain an indictment from a grand jury of competent and lawful jurisdiction with respect to my individual-self. You and others may be fully assured that I am now and will continue in the future, learning and living by THE FATHER's LAWS irrespective of others opinions and, or, actions.

In the past, I have always enjoyed the adversative judicial setting as I tend to 'feed and prosper' under those conditions. In other words, I have always enjoyed the results and the damage awards from a court of competent and lawful jurisdiction. This should not be consider on anyone's behalf a challenge; but, rather, only an open insight to my life.

At all times it is my firm intention to maintain the demeanor of a gentleman guided by honor. And, as long as my adversary, if any, maintains the same, all will be fine. However, please do not assume that in an adversative judicial setting that I will not plan and execute a gut-cutting experience for my adversary. This is not a threat, promise, etc., only a rendering of my past experiences in a judicial setting.

My motivation may be of a higher level than which most have experienced! I am required, as in not optional, by my MASTER, THE CHRIST, to comply with Revelations 18:4 (you may want to read same). HIS punishment for my failure to comply is much more severe and long-term than anything the corporate Babylon can dish-out! And, as a side-note, if it were not for the requirements found in THE FATHER's LAWS, I could give a 'flip' about the costs associated with a license, registration, and insurance. Those are insignificant, but, deadly to my long-term health.

I further offer to you and all others to visit a web-site of another as I do not and will not have a computer. This web-site is Freedom-School.com. There you will find a 26 week course with written materials and associated 1 hour audios on certain subjects. It is also most guaranteed to bring new and rather shocking facts to all. I will comment that it did hurt to find out how many lies were imposed upon our lives. And, how wrong we have been as a people, virtually, in-toto!

As this course is at no charge, the only thing which people risk by visiting this web-site is knowledge, wisdom, and understanding. Those items can be used only by a very few and rejected by the many. How sad is rejection? Very long-term! Please consider this most diligently.

If after examining said materials, it would be my fondest hope that you would bring your life and others into and under the jurisdiction of THE FATHER's LAWS as carried forth by THE CHRIST as judge, jury, and executioner. This would be the greatest reason for us to become

'brothers'. And, please do not assume and associate my request for your study as anything near the 'swill' of pontificating, soothing preachers.

If the proceeding paragraph is of no interest to you, then should you desire to explore the 'true' nature of the corporate government for which you work, then, I also would agree to a sharing of information with you. It would be quite nice if other members of law enforcement could avail themselves to the offering.

I have enclosed a self-addressed and stamped envelope for you to communicate your thoughts in the demeanor of a gentleman. After sending your written reply, you may call me at 1-870-496-2727. As I have a one-rate, I can call you back at no charge to either of us.

It is much more worthwhile to have a brother that is honorable than an adversary which is vanquished. I do look forward to your response and our mutual edification.

Most Sincerely,

Jerry F. Kirk
